ABOUT THE COMPANY

CST, core strength lies in our super energetic and gigantic team, forming an excellent blend of IT minds along with a creative bent. Taking ownership of not only one's own task but also creating an enduring & contented customer is what every individual works together with. Our endeavour is to continuously improve and deliver maximum-enriching products & solutions.

Vision

We are committed to going the extra mile to bring success to the clients consistently We are dedicated to delivering the right people, solutions, and services to the clients that they require to meet their technology challenges and business goals.

Mission

Optimizing client satisfaction with quality services Delivering the most efficient and the best solution to our clients to every client leveraging leading technologies & industry best practices.

Development

We develop responsive, functional and super-fast websites. We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection Creative web solutions blended with latest technologies form the right base for innovative businesses.

Branding and Design

We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers. We also design custom wraps for your products also known as package designing

Search Engine Optimisation

We help you manage your SEO campaign more efficiently and effectively. We help you gain market share by leveraging our expertise. our holistic approach to identify anything that may be hurting your traffic or rankings and show you just how to outrank the competition.

Research

We equip business leaders with indispensable insights, advice and tools to achieve their goals, our main area of research is in sentimental analysis, having published multiple papers on the same, we are in the process of creating a virtual bot that is intended to use our sentimental analysis data to provide real time replies

Project Name: ENGINEERING SGPA/CGPA CALCULATOR

Team Members: NAME- Nayan A C

NAME- Akash M

NAME- Shrinidhi H T

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

CGPA refers to the cumulative grade point average which literally translates to the sum total of all your credit points. This system helps in assessing the overall academic performance of a student. Although the evaluation criteria may vary from one country to another, the CGPA system is among the most common evaluation way in most professional/technical courses

ABOUT ENGINEERING SGPA/CGPA CALCULATOR PROJECT

The University adopts absolute grading system where in the marks are converted to grades, and every semester results shall be declared with Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA). The CGPA will be calculated for every semester, except for the first semester.

The grading system with the letter grades and the assigned range of marks under absolute grading system are as given below:

Level	Outstanding	Excellent	Very Good	Good	Above Average	Average	Fail
Letter Grade	S	A	B	C	D	E	F
Grade Points	10	9	8	7	6	4	00
Percentage of Marks Scored in a Course	5 \geq 90	<90 \geq 80	<80 \geq 70	<70 \geq 60	<60 \geq 45	<45 \geq 40	<40
	(90-100)	(80-89)	(70-79)	(60-69)	(45-59)	(40-44)	(0-399)

A student obtaining Grade F in a Course shall be considered fail and is required to reappear in the subsequent SEE. Whatever the letter grade secured by the student during his/her reappearance shall be awarded. The number of attempts taken to clear Course/s shall be indicated in the grade card.

Computation of SGPA and CGPA

The following expression shall be used to compute the semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) respectively:

$$SGPA = \frac{\sum [Course\ credits * Grade\ Points] \text{ for all the Courses in that semester}}{\sum [Course\ Credits] \text{ for all the Courses in that Semester}}$$

CGPA = $\frac{\sum [\text{Course Credits} * \text{Grade Points}] \text{ for all Courses excluding those with F and}$

transactional grades until that semester

$\frac{\sum [\text{Course Credits}] \text{ for all Courses excluding those with F grades until that semester}}{\sum [\text{Course Credits}]}$

SGPA, which stands for Semester Grade Point Average is an evaluation method that highlights the semester wise performance of the student. It can be calculated by simply adding all the credit points awarded for the subjects and then dividing it by the total credits allotted to that semester.

TOOLS USED

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS (optional)
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).
- Minimum Resolution of 1920*1080.

```

IMPLEMENTATION

Snapshots:

HOME PAGE:

The screenshot shows the home page of the VTU Calculator application. The browser window has a single tab titled "VTU CGPA & SGPA CALCULATOR". The address bar shows the file path "C:/Users/Akash%20M/project/index.html". The application header includes the logo "VTU CALCULATOR" and navigation links for "PERCENTAGE CALCULATOR", "SGPA CALCULATOR", and "CGPA CALCULATOR". The main heading is "VTU PERCENTAGE CALCULATOR". Below this, there is a label "CGPA/SGPA" followed by an empty input field. A "Calculate Percentage" button is positioned below the input field. Underneath the button, the word "Result" is displayed above the label "PERCENTAGE", which is followed by another empty input field. The footer of the application states "© 2021 Design by Aspirants".

PERCENTAGE CALCULATOR:

This screenshot shows the same application after a calculation. The browser window now has multiple tabs, including "doja cat - woman t slo...", "1632210550643.pdf", and "(58) Free CCNA | Extended Acco...". The address bar remains the same. The application header and navigation links are identical to the previous screenshot. The main heading "VTU PERCENTAGE CALCULATOR" is still present. In this state, the "CGPA/SGPA" input field contains the value "8". The "Calculate Percentage" button is still visible. Below it, the "Result" label is now above the "PERCENTAGE" label, which is followed by an input field containing the value "72.50". The footer "© 2021 Design by Aspirants" is also present.

SGPA CALCULATOR:

CGPA CALCULATOR:

The screenshot shows a web browser window with the address bar displaying "C:/Users/Akash%20M/project/cgpa.html". The page title is "VTU CGPA & SGPA CALCULATOR". The main heading is "VTU CGPA CALCULATOR". Below the heading, there is a text input field labeled "Choose accordingly". To the right of this field is a dropdown menu labeled "SCHEME" with the value "2018" selected. Below the dropdown menu is a "Submit" button. At the bottom of the page, there is a copyright notice: "© 2021 Design by Aspirants".

The screenshot shows the same web browser window, but now the "Calculate CGPA" button has been clicked, and the results are displayed. The page title is "VTU CGPA CALCULATOR". Below the heading, there is a table of input fields for semesters and their corresponding marks:

SEMESTER	MARKS
1ST SEM	6.5
2ND SEM	7.7
3RD SEM	7.5
4TH SEM	6.4
5TH SEM	6.8
6TH SEM	8.0
7TH SEM	7.2
8TH SEM	7.8

Below the table, there is a "Calculate CGPA" button. Below the button, there is a "Result" section with two rows:

Result	Value
CGPA	7.22
PERCENTAGE	64.73

ABOUT MY TEAM

1. Nayan A C

Leaded the team through the ideas and examples on how to make the pages more dynamic, helped through finding syntaxes and assets like icons, designs reviewing and finalizing has done by him.

2. Shrinidhi H T

Created the base of the project i.e., HTML attributes he has gone through all the syntaxes that we needed, he also researched the content that we needed to our project. Report works were taken care by him.

3. Akash M

Did all the styling and design works like Choosing the right colours, fonts, aesthetics for the project, worked on animating the assets also he used creative applications to make even more zestful. Required assets is collected by him.
